UJJAWAL VERMA

ujjawalchoudharyy @gmail.com | +91 7078712024 | GHAZIABAD, (UP) | Ujjawal Verma | Ujjawal023

PROFILE

Final-year B.Tech CSE student with hands-on expertise in the **MERN Stack**. Proficient in **JavaScript (ES6+), RESTful API design, responsive UI/UX development**, and version control with **Git/GitHub.** Experienced with **Agile/Scrum methodologies, CI/CD pipelines**, and cloud-ready application development. Published **IEEE co-author with proven ability to build scalable, high-performance web applications**. Passionate about clean code, software architecture, and delivering seamless user experiences.

SKILLS

Frontend Development: React.js, HTML5, CSS3, Tailwind CSS, JavaScript (ES6+), Responsive Web Design, Cross-Browser Compatibility, UI/UX Design Principles

Backend Development: Node.js, Express.js, RESTful APIs, API Integration, Server-Side Rendering (SSR), MVC Architecture, Middleware

Databases & Cloud: MongoDB, MySQL, Database Design, CRUD Operations, NoSQL, SQL

Programming Languages: JavaScript, Python, HTML5, CSS3

AI/ML & Deep Learning: Machine Learning, GenAI, Web Speech API, AI Integration

Tools & DevOps: Git, GitHub, VS Code, Figma, Agile/Scrum, SDLC, Debugging, Code Review

Soft Skills: Team Collaboration, Communication, Problem-Solving, Troubleshooting, Analytical Thinking

PROJECTS

Traffic Rules Violation Detection System
Tech Stack: *Python, Django, Deep Learning, Machine Learning, React, HTML, CSS, MySQL*

- Designed and developed a web-based traffic violation management system with separate user and agent workflows.
- Implemented image/video-based violation reporting, agent verification, and automated challan generation logic.
- Built a centralized database schema to manage users, violations, and challans using MySQL.

AI Voice Assistant — AERIS
Tech Stack: *JavaScript (ES6+), Web Speech API, HTML5, CSS3*

- Developed an AI-powered voice assistant using JavaScript and the Web Speech API for real-time voice recognition and text-to-speech synthesis.
- Built a fully responsive, cross-platform front-end interface using HTML5 and CSS3, ensuring seamless UX across devices and browsers.
- Implemented dynamic command processing and response generation to handle multiple user intents in real time.

PROFESSIONAL EXPERIENCE

FULL STACK INTERN **04/2035 - 10/2025**
BRANDVIO PVT. LTD. Noida, UP

- Built and deployed responsive web pages using HTML5, CSS3, JavaScript, and React.js with mobile-first design and cross-browser compatibility.
- Integrated RESTful APIs into frontend components, enabling dynamic data rendering and seamless backend communication.
- Utilized Git/GitHub for version control and collaborated in an Agile team environment following sprint-based delivery cycles.
- Improved UI/UX through reusable React components, reducing code duplication and enhancing maintainability

EDUCATION

B. Tech in Computer Science and Engineering (CSE) **08/2023 – Present**
Raj Kumar Goel Institute of Technology (AKTU) Ghaziabad, India

Diploma in Civil Engineering **08/2019 – 06/2022**
S.D Group of Engineering & Technology (BTEUP) Muzaffarnagar, India

CERTIFICATIONS

- **Co-authored an IEEE Research Paper on Traffic Rules Violation Detection System (TRVDS)**
- **Delta Full Stack Web Development - Apna College**
- **HTML, CSS, and JavaScript for Web Developers - Johns Hopkins University (Coursera)**
